Sai Chaitanya Susarla

s.c.susarla@soton.ac.uk, saichaitus.99@gmail.com

Github profile

Postdoctoral fellow in the School of Mathematics at the **University of Southampton, UK**. My current focus is on advancing profile domain timing methods using Machine learning techniques.

Personal Data

Date of Birth : 17th January 1999
Place of Birth : India
Nationality : Indian
Current Residence : Southampton, United Kingdom
ORCID ID : 0000-0003-4332-8201

Work Experience

- **Postdoctoral fellow: School of Mathematics** — **Southampton, UK**
  University of Southampton — *May 2026 - Present*
  Project title: Profile Domain timing using machine learning techniques.
- **Postdoctoral fellow: Department of Physics** — **Egham, UK**
  Royal Holloway, University of London — *October 2025 - May 2026*
  Project title: Inferring the timing properties of neutron stars with hierarchical profile-domain timing.

Education

- **Doctoral Studies: Physics and Astronomy** — **Galway, Ireland**
  University of Galway — *2021–2025*
  Thesis title: Examining ecliptic pulsars using the low frequency telescopes
- **BS-MS Dual Degree: Physics Major, Maths Minor** — **Thiruvananthapuram, India**
  Indian Institute of Science Education and Research, Thiruvananthapuram, — *2016–2021*
  8.37/10 CGPA
- **Higher Secondary Certificate – 89.00%** — **Pune, India**
  Kendriya Vidyalaya Southern Command, — *2014–2016*
  In top 1% of Central Board of Secondary Education

Scholarships/Fellowships

- January 2023 - *APS FIP Distinguished Student Award* by the American Physical Society, Forum for International Physics.
- August 2021 - *College of Science and Engineering Fellowship* by the College of Science and Engineering at the University of Galway.
- August 2021 - *International Merit Scholarship* by the University of Galway which covers the fees for Graduate studies.
- June 2017 - *Visiting Students Programme* at National Centre for Radio Astrophysics–Tata Institute of Fundamental Research.
- September 2016 - *Inspire SHE Scholarship* by Department of Science and Technology, Government of India.

Talks & Posters

Invited talks

- **October 2026 - Scintillometry 2026 workshop, Cornell University, USA** - Title– If you can simulate, can you measure it?
- **Feb 2026 - CPPA Seminar, Royal Holloway University of London, London, UK** - Title– Exploring the ecliptic pulsars using the low frequency telescopes
- **May 2025 - SHAO Seminar, Shanghai Astronomical Observatory, Shanghai, China** - Title– Radio eyes on the sky: Using pulsars to probe the Sun and detect Gravitational ripples.

Contributed talks

- **Sept 2026 - SPINS UK 2026, Bath, United Kingdom** - Simulation-based inference of profile evolution for high precision pulsar timing.
- **June 2026 - International Pulsar Timing Array meeting 2026, Drakensburg, South Africa** - Talk on Modelling frequency evolution using Simulation-based inference techniques.
- **May 2025 - European Pulsar Timing Array spring meeting 2025, Bonn** - Talk on Solar wind model comparison and use cases for EPTA-LOFAR data combination.
- **Oct 2024 - Physics Seminar, University of Galway** - Talk on Pulsar observations using I-LOFAR.
- **June 2024 - International Pulsar Timing Array meeting 2024, Sexten, Italy** - Talk on Exploring the time variability of solar wind and comparison with recent models for pulsars using LoFAR dataset.
- **May 2024 - Departmental presentation, University of Galway** - Talk on Effects on Solar wind on LOFAR pulsar data.
- **March 2024 - European Pulsar Timing Array Spring meeting 2024, Saumur, France** - Talk on Exploring the time variability of solar wind using pulsars from the LoFAR dataset.
- **November 2023 - European Pulsar Timing Array Fall meeting 2023, Oxford** - Talk on Exploring the effects of solar wind on pulsars.
- **August 2023 - Irish National Astronomical Meeting 2023, Cork**- Talk on Solar Wind effects and how to disentangle them?
- **June 2023 - 15th Edoardo Amaldi Conference on Gravitational Waves 2023, Virtual** - Poster on Exploring the effects of the Solar Wind on pulsars using the LoFAR telescope
- **April 2023 - American Physical Society April Meeting 2023, Minnesota** - Talk on Exploring the effects of Solar Wind on pulsars using the LOFAR telescope.

Publications

All the statistics here are updated according to NASA/SAO Astrophysical Data system as of 30th June 2026.
All the publications can also be viewed in the ORCID profile (ID: 0000-0003-4332-8201) or alternatively in the ADS system: (link)
Google Scholar profile: (link)
h-index of refereed publications: 17
Total number of citations: 3619
First author refereed publications: 3 publications in A&A, 1 submission in MNRAS

List of publications since 2020 (Recent first):

Conference proceedings (Recent first):

[24] **Sai Chaitanya Susarla** & European Pulsar Timing Array (EPTA) Team. "Exploring the Effects of Solar Wind on Pulsars using the Low Frequency Array (LOFAR) Telescope". In: *APS April Meeting Abstracts*. Vol. 2023. APS Meeting Abstracts.
Conference Abstract for APS meeting 2023. Jan. 2023, T13.003, T13.003.

Computational Skills

- Proficient in: C++, Python and LaTeX.
- Working knowledge of: MATLAB, Mathematica
- Proficient in pulsar analysing softwares such as Tempo2, Sigproc, PSRchive, PINT, ENTERPRISE and LIBSTEMPO.
- Proficient in machine learning applications like the SBI software.

Supervisory and Teaching experience

- **Lab leader in Physics 2nd year undergraduate labs**
  University of Galway *Sep 2024–April 2025*

- **Supervised a summer project student**
  University of Galway *July 2024–Aug 2024*
  Title: Single pulses of the Crab pulsar using Irish-LOFAR station.
- **Lab leader in Physics 2nd year undergraduate labs**
  University of Galway *Sep 2023–Apr 2024*
- **Lab leader in Physics 1st year undergraduate labs**
  University of Galway *Sep 2021–Dec 2021*

Telescope proposals and Observing experience

- **LC20_029: Tracing the Heliosphere with pulsars** **Allocated 24.5 hours**
  LOFAR Core proposal *June 2023*
  PI of the project.
- **LC18_016: Tracing the Heliosphere with pulsars** **Allocated 10.5 hours**
  LOFAR Core proposal *June 2022*
  PI of the project.
- **Chief observer handling the observations and processing of data**
  Irish-LOFAR station *Sep 2021–Aug 2025*
- **Scheduling and processing of observations.**
  German Long Wavelength LOFAR stations *Sep 2023–Jan 2025*
- **42_020: Star-planet interactions in the AU Mic planetary system**
  uGMRT observations *May 2022*
  Co-observer
- **Indian Pulsar Timing Array project**
  uGMRT observations *April 2019–Sept 2021*
  Co-observer

Memberships of Collaborations

- Square Kilometer Array pulsar Working Group Aug 2024–Present
- LOFAR pulsar Working Group Feb 2022–Present
- European Pulsar Timing Array Oct 2021–Present
- International Pulsar Timing Array May 2020–Present
- Indian Pulsar Timing Array May 2018–Dec 2021

Known Languages

Telugu: Native
Hindi: Native
English: Fluent
Marathi: Basic

Other details

- Participated in outreach activity for students of Trinity College Dublin Space society at Birr, Ireland showing them the Irish-LOFAR telescope.
- Conducted Public Outreach for students in nearby schools in Thiruvananthapuram, India to spread awareness about Pure Sciences in March 2019.
- Represented Indian Institute of Science Education and Research (IISER) Thiruvananthapuram at the Inter IISER Sports Meet 2017 in Badminton
- Avid trekker and mountaineer; completed some of the toughest treks in the Western Ghats of India.
- Achieved a rank of ∼7000 in **Joint Entrance Examination Advanced 2016**
- Member of Sports council of IISER Thiruvananthapuram.
